

Call for Proposals

Call Details

To conduct a feasibility study.

The **Adoption Council of Canada** is issuing an open Call for Proposals for individuals, firms or organizations interested in conducting a feasibility study for a proposed project. The project will identify, engage, and involve multiple agencies and funders.

Applicants with experience in fundraising, partnership development, research and conducting an economic, environmental and legal analysis/scan are welcome to apply to identify the proposed projects potential. The successful applicant will ensure the project is inclusive, relevant, and accessible.

We anticipate the feasibility study will have outputs and outcomes related to capacity building; influencing policy, practice, and behaviour; and identify the importance of addressing the systemic needs of vulnerable populations experiencing socio-economic insecurity. The feasibility study should clarify how the project intends to contribute to improvements in accessibility to holistic services.

The feasibility study will include a report to address funding, potential partner agencies, and financial viability.

The feasibility study and report must be completed by **June 2021**.

Calls for Proposals are due by **March 16, 2021**.

For further information, please contact cathy@adoption.

The ACC thanks you for your submission, only those whom we will meet with will be contacted.
